

DEPLOY IN KUBERNETES CLUSTER

Team Id	PNT2022TMID30917
Project Name	Plasma Donor Application

Kubernetes cluster creation

The image shows two screenshots from the IBM Cloud console. The top screenshot displays the 'Overview' page for a newly created Kubernetes cluster named 'customerarent'. The cluster is in a 'Preparing master, workers...' state and will expire in 30 days. Key status indicators show 1 of 1 nodes pending, 0 of 0 add-ons normal, and the master status as unknown. The cluster ID is 'cdp334uf0zn1'. The bottom screenshot shows the 'Namespaces' page in the Container Registry, listing a namespace named 'shyamrepo' with 1 repository and 1 image, located in the 'Osaka' region.

Kubernetes Cluster Overview

Node status	Add-on status	Master status	Ingress status
1 of 1 Pending	0 of 0 Normal	Unknown	Pending

Cluster Details

Cluster ID	Version	Infrastructure	Zones
cdp334uf0zn1	1.24.7_1542	Classic	Milan 01

Container Registry Namespaces

Name	Resource group	Repository count	Image count	Retention policy
shyamrepo	Default	1	1	Retain all images
