

**Project Design Phase-II**  
**Solution Requirements (Functional & Non-functional)**

Date	03 October 2022
Team ID	PNT2022TMID30917
Project Name	Project - PLASMA DONOR APPLICATION
Maximum Marks	4 Marks

**FUNCTIONAL REQUIREMENTS :**

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form (WebApp)
FR-2	User Confirmation	Confirmation via Email Confirmation via OTP
FR-3	Certification	After the donor donates plasma, we will give them a certificate of appreciation and authentication.
FR-4	Statistical data	The availability of plasma is given in the page as stats, which will be helpful for the users.
FR-5	User Plasma Request	Users can request to donate plasma by filling out the request form on the page. Once the request is submitted, they will get an email
FR-6	Searching/reporting requirements	Users can use the search bar to look up information about camps and other topics.
FR-8	Virtual Assistants	A virtual assistant is a software agent that can carry out tasks or provide services on behalf of a person in response to commands or inquiries. When users enter their inquiries, the system will respond with pertinent information about plasma and details of plasma donation.

**NON FUNCTIONAL REQUIREMENTS :**

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	<b>Usability</b>	Must have a good looking User friendly interface.
NFR-2	<b>Security</b>	It must be secured with the proper username and password.
NFR-3	<b>Reliability</b>	The system should be made in such a way that it is reliable in its operations and for securing the sensitive details.

NFR-4	<b>Performance</b>	Users should have a proper Internet Connection.
NFR-5	<b>Availability</b>	The system including the online and offline components should be available 24/7.
NFR-6	<b>Scalability</b>	The application has the ability to handle growing numbers of users and load without compromising on performance and causing disruptions to user experience.
